# GROUP ETIQUETTE: GBTRS

---

Welcome to the Airwise Flying Group! Here are some simple guidelines to help us operate our group in a safe and relaxed way while avoiding a long list of rules.

---

## NEW JOINERS / GENERAL ADVICE

- Please take the time to learn about the aircraft. Especially if you have only flown school aircraft before.
- Consider putting the tow on charge while you are out flying the aircraft
- Stow everything away tidily in the locker to prevent any damage.
- Please use WhatsApp for any aircraft/booking information that is time-critical
- Unfortunately, ride-sharing websites are not permitted. However, members are encouraged to arrange shared flights
- If you are unsure about any aspect of aircraft operation – please ask - “better safe than sorry”, advice will be provided quickly with no judgement 😊

---

## BOOKING THE AIRCRAFT

- Be mindful that some members are restricted to certain days or weekends
- Only book what you need - most flights are <90 mins and don't need a full-day.
- Remember to cancel your unused bookings, e.g. in the event of bad weather
- Do any cancellations as early as possible, then let members know it's free
- Please ask members via WhatsApp, if you would prefer to swap a slot
- Please avoid booking more than 4 flights in advance.
- Contact the group in advance before booking consecutive days
- Take the time to learn about the booking patterns of other members.

---

## CLEANING THE AIRCRAFT

- Please try to keep the aircraft clean and flying well, especially when landing on muddy fields. There is a handy hose near Hangar 1 which makes this easier.
- Please wipe any dead bugs off the windscreen with a wet cloth prior to next flight
- Always leave the aircraft better than you found it. Removing any rubbish

---

## GETTING INVOLVED

- Please provide your suggestions for improvements to communications
- Any new equipment requests need agreement by the group
- Share occasional updates in WhatsApp, but remember we are not Facebook!
